

Turn your own evidence
into assurance.

AI-powered assurance

Use your data—mapped to regulatory standards and accreditation requirements—to run AI-powered audits based on your real documents, policies, reports, committee papers, and operational evidence. From compliance to continuous improvement, move from evidence-led assurance.

MONTHS TO MOMENTS

COURSE & UNIT PULSE AUDIT TOOLKIT

EXECUTIVE INTRODUCTION

Key Focus Areas

- TEQSA readiness and regulatory compliance
- HESF alignment across all quality domains
- Continuous assurance mechanisms
- Academic quality monitoring systems
- Governance oversight and accountability

Toolkit Purpose

The Course & Unit Pulse Audit Toolkit provides a live, evidence-based framework for continuous course and unit quality assurance. It enables institutions to maintain ongoing compliance visibility and proactively address quality gaps before they become critical issues.

PULSE AUDIT MODEL

Project Scope

A continuous, cyclical workflow ensuring real-time quality assurance and TEQSA readiness through six integrated stages.

Continuous Audit Cycle

1. Upload Evidence →
2. Run AI Audit →
3. Validate Findings →
4. Assign Actions →
5. Dashboard Reporting →
6. Continuous Improvement

SEVEN INTEGRATED EVIDENCE FOLDERS

1. Course Design & Structure – CLOs, AQF alignment, governance approvals
2. Unit Design & Constructive Alignment – ULO mapping, teaching design, LMS quality
3. Assessment Design & Validity – Rubrics, fairness, outcome mapping, feedback
4. Academic Integrity & Moderation – AI detection, moderation, misconduct processes
5. Benchmarking & Accreditation – External referencing, sector comparison
6. Assessment Analytics & Continuous Improvement – Grade trends, dashboards
7. Validation, Review & Assurance – AI audit validation, governance oversight
